

DEL COAT

**a long-life coat which substitutes the standard
delivery coat**

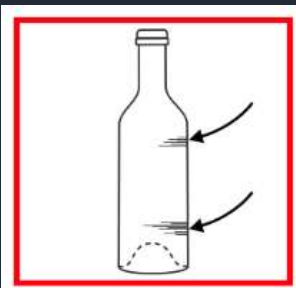

Developed by Glass People for Glass People

DEL COAT

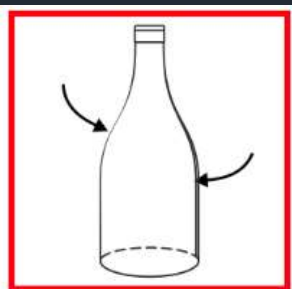

YOUR LONG-LIFE DELIVERY COAT

Standard delivery coat – Production losses:

❑ WashBoard marks

❑ Thin Walls

* TECHFLAME is an engineering company with experts in Glass Manufacturing with more than 25 years experience.

DEL COAT

YOUR LONG-LIFE DELIVERY COAT

Standard delivery coat – Operational expenses:

- Special compound for delivery coating and its logistic.
- Maintenance persons for coating.
- Delivery coat short life – 20-30 days.
- Expenses for keeping gob hotter because of its transportation.
- Reduced productivity due to low machine cycles.

* TECHFLAME is an engineering company with experts in Glass Manufacturing with more than 25 years experience.

DEL COAT

YOUR LONG-LIFE DELIVERY COAT

- *Minimizes visual defects - long operation hours without wear, perfectly flat surface*

* TECHFLAME is an engineering company with experts in Glass Manufacturing with more than 25 years experience.

Customer Feedback

DEL-COAT
CUSTOMER FEEDBACK FORM

General information:
Name of The Company: AO Glanit
Tel: +7 (928) 183 16 57 Fax: E-mail: e_dybtsev@glanit.ru
City: Novocherkassk Country: Russian Federation
Date: 17.02.2023
Company is represented by Evgeni Dybcev
Occupation : Technical Director

1. What product do you use?
 DEL_COAT DEL_COAT BFS

2. When you started to use it?
30.05.2022

3. Purpose for using it?
 Production test Regular production

4. How long do you use it?
 6 months 9 months 12 months 15 months 18 months more

5. Does the coat meet your expectations?
 Exceed expectations Matched expectations Less than expected

6. Does the coat reduce your Operational expenses?
 Yes No

7. Does the coat reduce your visual defects?
 < 1% 1% 2%

8. Does the coat increase your PM %
 < 2% 3% 4%

9. Recommendations:
The coat is great achievement for glass industry. We increased PM % due to increasing the timing between blanks swabbing from 30 min to 8 hours. The troughs and deflectors are still in operation.
